PUBLISHER'S STATEMENT

International BONSAI is the world's premier English language bonsai magazine and the first and only professional bonsai magazine published in the United States. As the leading bonsai periodical, our educational and artistic copies have aided in setting the standards of publication and have introduced new people to the fascinating world of bonsai.

Our high standards of excellence are reflected throughout the publication from the articles through the entire production process of editing, design, photography, layout, printing and distribution.

Our international circulation now reaches active bonsai hobbyists in over 50 countries who are eager to purchase new supplies, products, books, tools and plant material as well as visit new nurseries. Dates and information for bonsai exhibits, conventions and societies are always of interest to bonsai hobbyists.

Your advertisements will be read more than once. Most subscribers purchase back copies which are kept in their personal libraries for ready reference. Public libraries, botanical gardens, arboreta, nurseries and horticultural institutions as well as bonsai societies keep *International BONSAI* for their member's use and reference. Keep your name in front of our subscribers through your advertising.
